

The path of the 1706 total solar eclipse over Europe

DOPPELMAYR, Johann Gabriel.

Eclipseos Solis Totalis cum mora, d.12 Maji 1706, horis autem: in Europa celebratæ...

Amsterdam: Pieter Schenk, c.1710. Original colour. 485 x 570mm.

£1,000

A rare map of the route of the 1706 solar eclipse across Europe, which was total across southern Spain and France, central Germany, northern Poland, Livonia, eastern Finland and Russian Lapland. One diagram explains the science of an eclipse and another predicts the path of the 1715 eclipse, the one observed by Halley.
