A large map coving from the Balkans to the Ukraine, Caspian Sea, Western Persia, Arabia and the Nile. It is unusual in that it uses stipple engraving to give texture to the open areas, especially in Arabia. It is also an unusually international publication, published in France by the engraver, with the assistance of publishers in other countries: James Wyld and John Cary in London; Artaria & Fontaine in Mannheim; Villardi in Milan; Bouffa & Fils in Amsterdam; and Brunin in Glasgow (a publisher not listed in Tooley's Dictionary).
