

Map of the Central American crossings

WYLD, James.

Map of Central America Shewing the Different Lines of Atlantic & Pacific Communication.

London: James Wyld, 1850. Original colour. Lithographic map, sheet 600 x 810mm.

£800

Map of Central America from Vera Cruz in Mexico south to the Gulf of Darien, showing the possible crossings of the isthmus, including Tehuantepec and Panama. An inset map shows the geology of the Panama route, and four sections display the altitudes of the routes.
