

An 18th century map of Turkey and Cyprus

SEUTTER, Matthäus.

Natoliae olim Asiae Minoris Tabula per Matth. Seutterum

Augsburg: Johann Michael Probst, c.1770. Bright original colour. 500 x 575mm.

£550

A very fine example of this scarce edition of Seutter's map of Turkey, first published c.1730, issued after Probst bought Seutter's printing plates from Seutter's son-in-law and successor, Tobias Conrad Lotter. The original colour is particularly strong.
