

An uncommon 19th century Spanish sea chart of Fuerteventura

ARLETT, William.

Oceano Atlantico Septentrional. Carta de la Isla de Fuerteventura en las Canarias, levantada en 1835 por el Teneiente Arlett de la Marine R.I Inglesa. Corregida en 1868.

Madrid: Direccion de Hidrografia, 1868. Touch of original colour. 490 x 680mm. Blind stamp of the Direccion de Hidrografia.

£900

A scarce chart of Fuerteventura, one of the largest and most detailed maps of the island of the period, showing the relief of the mountains with hachuring. Lighthouses are marked in colour.
