

A 'minimalist' 19th century map of Ischia

ISTITUTO GEOGRAFICO MILITARE.  
 Isola D'Ischia

Florence, Istituto Geografico Militare; 1883. Original colour. 460 x 530mm.

£150

An unusual depiction of Ischia, on one sheet of a larger map of Italy; hence the island takes up only a small portion of the printed area, with the rest blank. The Istituto Geografico Militare (or Military Geographic Institute) is the national mapping agency for Italy.
