

18th century double-hemisphere world map

BRION DE LA TOUR, Louis.
Mappe-Monde Dressée pour l'étude de la Géographie...

Paris, Desnos, 1786. Original colour. 280 x 315mm.

£400

Double-hemisphere world map, with a decorative title cartouche & separately-printed frame-like border. Points of interest include: the uncertain coastlines of New Zealand and eastern Australia despite Cook's mapping fifteen years before; the 'Mer de l'Ouest' in North America; and the Island of Yeso above Japan.
