 Carte Topographique des Environs de La Rochelle.

Paris, Jean Chevalier de Beurain, 1758. 510 x 605mm.

£700

A very detailed chart of La Rochelle, also mapping the land in the environs. La Rochelle importance as a sea port made it a possible target for the British during the Seven Years' War (1756-63), and Beurain was commissioned to map the area to aid its defence.
