

A wall map of Louis XIV's France

DU VAL, Pierre.

La France avec ses anciennes, et ses nouvelles Bornes.

Paris, 1671. Original outline colour. Four sheets joined in pairs, each pair 425 x 1110mm.

£1,400

A scarce four-sheet map of France, each with an extra title relating to Carolingian France: 'Neustrie' (north west), 'Austrasie' (north east), 'Aquitaine' (south west), and 'Bourgogne' & 'Arles' (south east). Although the map was probably issued as a broadsheet, this example has been re-engraved to form atlas maps.
