

A sheet from an important large-scale map of Hertfordshire

ANDREWS, John & DURY, Andrew.
[St Albans - Welwyn - Hertford.]

London: William Faden, 1782. Original colour. 540 x 750mm.

£450

One of the nine sheets of Andrews & Dury's monumental map of Hertfordshire, on a scale of 2" to a mile, double the size of the majority of large scale maps of the period. Originally published in 1766, we believe this to be Faden's issue of 1782 because of the style of the original hand colour.
