

A colourful map of Calabria

JANSSON, Jan.
Calabria Ultra, olim Altera Magnae Graeciae pars.

Amsterdam, Schenk and Valk, c.1710. Original colour. 380 x 485mm with wide margins.

£425

A fine example of this map, derived from Jansson's map of Calabria, first published in the 1630s. The cartographic details are the same, as are the vignette decorations, but the plate is a centimetre smaller height and width, the title cartouche is more elaborate and a grid has been engraved across the map.
