

A mid-18th century map of North America

LOTTER, Tobias Conrad.

America Septentrionalis Concinnata juxta Observationes Dun Academiae Regalis Scientiarum et nonnullorum aliorum, et juxta annotationes recentissimas Per G. de L'Isle, Geographum.

Augsburg, c.1765. Original colour. 480 x 590mm.

£600

North America, engraved by Georg Freidrich Lotter after Guillaume Delisle's map of 1700, but showing the divisions of the European colonies at the end of the Seven Years' War, with Quebec taken by the British. Lotter has made no effort to show the north west, leaving everything north of California and west of the upper Mississippi blank.
