

A 17th century plate illustrating the Moon phases

MALLET, Alain Manesson.  
 [Untitled plate of the phases of the Moon.]

Paris, 1683. Coloured. 150 x 110mm, set in letterpress.

£180

A plate with a banner hanging above a landscape, on which is an illustration explaining how the phases of the moon are created by it orbiting the Earth, as the Earth orbits the Sun. Published in the 'Description de l'Univers'.
